30+ Simultaneous Projects	10+ Team Members Led	90%+ Stakeholder Engagement	5+ Years Experience
------------------------------	-------------------------	--------------------------------	------------------------

PROFESSIONAL SUMMARY

Project Manager with 4+ years of experience in managing business processes, stakeholder coordination, and workflow optimization, with hands-on expertise in Microsoft Power Platform automation. Experienced in designing and implementing Power Automate workflows, Power Apps Canvas applications, and Power BI dashboards to streamline operations, improve visibility, and reduce manual efforts. Skilled in analyzing business requirements, translating process challenges into automation solutions, and delivering data-driven improvements. Strong understanding of Microsoft Dataverse, Model-driven App concepts, Power Platform governance, and Microsoft 365 integrations, combining project management capabilities with automation expertise.

PROFESSIONAL EXPERIENCE

Project Manager | Automation Specialist | Microsoft Power Platform
Integra Software Services Pvt. Ltd Jun 2022 – Present

- Architected and implemented Microsoft Power Automate workflows integrated with Microsoft Forms and Microsoft 365 services to automate revenue tracking, task monitoring, and stakeholder notifications, reducing manual follow-ups and improving process compliance.
- Developed Power Apps Canvas applications for internal workflow management and operational tracking, enabling users to efficiently capture, update, and monitor business data while reducing dependency on manual processes.
- Designed and developed Power BI dashboards and reports to provide leadership with visibility into project performance, resource utilization, operational metrics, and delivery KPIs for data-driven decision-making.
- Analyzed business processes and identified automation opportunities, translating stakeholder requirements into scalable workflow solutions using Microsoft Power Platform tools.
- Led and mentored a team of 10+ professionals, ensuring effective project execution, client requirement alignment, quality assurance, and timely delivery of business objectives.
- Managed 30+ concurrent projects, maintaining control over scope, timelines, budgets, and quality standards while coordinating with internal teams and external stakeholders.
- Maintained 90%+ stakeholder engagement through structured communication practices, including project status reporting, review meetings, progress tracking, and executive updates.
- Conducted post-project retrospectives and implemented continuous improvement initiatives by documenting lessons learned, optimizing workflows, and introducing process enhancements.

Clearance Specialist

Lumina Datamatics Jun 2021 – May 2022

- Managed permits, trademark rights, and creative licensing for operations and events; negotiated favorable terms under tight deadlines.
- Maintained precise clearance records and budget tracking; streamlined client communication workflows for approvals and payments.
- Collaborated with creative teams to fulfill third-party material requests ensuring full legal compliance across all deliverables.

Station Support Associate (JMS Logistics, Teamlease & KRR Doss Travels)

Amazon Transportation Services 2019 – 2020

- Managed daily shipment allocation, monitored completion targets, and resolved customer queries to ensure seamless last-mile operations.
- Coordinated between customers and vendors; maintained detailed daily logs for performance analytics and weekly vendor reporting.
- Awarded for outstanding operational efficiency and consistent on-time delivery performance.

SPOTLIGHT: POWER PLATFORM SOLUTION

End-to-End Automated Revenue-Tracking System

- Designed a multi-layer automation using Power Automate + MS Forms + SharePoint as the data backbone.
- Integrated Power Apps front-end for data entry and approvals, and Power BI for real-time executive dashboards.
- Deployed a Power Virtual Agent to handle submission queries, reducing manual follow-up emails by ~70%.
- Conditional logic engine auto-routes reminders based on submission status, deadline proximity, and stakeholder tier.
